### SENTIMENT OF G. O. P. INCREASES

G. O. P. Meeting at Reno Last Week Exceeds Democratic in Enthusiasm

RENO, Nevada, Sept. 20.—The lessons to be learned from the political meetings at Reno last week will be valuable to men and women of Nevada, if properly assimilated. They were the opening statements of men who, perhaps, will become more prominent in presenting their sides of questions as the campaign progresses. They were the spontaneous actions of crowds whose sentiments will become more crystallized and decided before election time. Viewed as impartially as a mere reporter may consider the Republican and Democratic events the meaning of the two gatherings is just this: That Nevada is a Republican state right now, for this year.

The Republican meeting was twice as large as the Democratic, and four times as enthusiastic. Republican speakers urged the people to think of the character and accomplishments of candidates. The Democratic candidate for the highest office in the United States did not use argument. That is about the best which may be said of his speech. He employed invective. He appealed to prejudice. He prostituted himself by adopting more reservations to the position, or positions, he had previously announced. To be precise, candidate Cox said in his Reno speech that he is now pretty much everything he was not at the time of the San Francisco convention, and when he wrote his speech of acceptance. He is in favor of reservations to the league of nations document. He is absolutely "dry" in sentiment. He will not take a drink on a bet and those who want liquor in any form have nothing to hope for from him. Apparently the flapping and floundering of their candidate for president took all enthusiasm out of the premier Nevada Democrats. He was called upon to bow his head to the streets of Reno. There were no decorations in honor of his coming. There is a perfectly good display of the post office here, but it was not utilized by the Democratic postmaster. Sam Pickett might have been expected to put some emblem of rejoicing or patriotism in front of his place of business—but he didn't. A flag might at least have been looked for in front of the theatre where Cox was to speak, but none was there.

Cox in his speech, and headlined headed Senators Pittman and Henderson, who were on the stage with him. They squirmed under the gaze. The speaker begged their pardon. Congressman Evans was snubbed—passed up. He was not mentioned, although he too occupied a seat on the stage. This strange omission, which surprised many in the Cox audience, was alluded to in the speech of A. Grant Miller at the Republican meeting Friday night, who incidentally asserted that the reason would be made fully apparent before November 2. If the statement had not been reiterated by Republican speakers, that no "mud-slinging" was to be countenanced in this campaign, it might have been understood that the private life of the Democratic congressman was to be brought into the limelight, and the presidential possibility feared to face the result.

### Increased Rates in State Denied Roads

Taking the position that the 25th Cummings act of congress does not apply to Nevada as compared with take away from the states the act to regulate transportation increases points wholly within their boundaries. The public service commission of Nevada in an unanimous opinion has denied the applications of the railroads for rate increases equal to those granted on interstate business a short time ago by order of the interstate commerce commission.

The increases asked by the companies were 20 per cent in freight rates, 20 per cent for transportation of milk, 25 per cent on passenger fares and 50 per cent on Pullman charges.

### HIGH GRADE ORE FROM ARROWHEAD

A beautiful specimen of high-grade silver ore, weighing about 60 pounds, was brought in from the Arrowhead mine by Mark Bradshaw, who returned from the district today.

The specimen is full of silver sulphides and will run well over 1000 ounces of silver to the ton. It comes from a three-foot streak on the hanging wall of the vein on the 100-foot level, the vein crossing at this point being 11 feet wide.

The orebody has been traced to the west on this level for 52 feet, where it makes a sharp turn, carrying the vein values in the drag. The vein is again straightening to the northwest and values are increasing as it approaches its original course.

This ore has been picked up on the 175 level in the past few days, and it will be again proven on the bottom, at 247 level, as soon as the new plant of machinery recently purchased from the district has been installed.

It was found necessary to supplant the present equipment with heavier and faster machinery because of the different places that ore has been exposed.

### MRS. H. G. TAYLOR CALLED TO REST

News has been received in Tonopah of the death of Mrs. Mary Taylor, wife of H. G. Taylor, surface foreman at the Belmont development company, who died in San Francisco yesterday evening last. Mrs. Taylor was taken to San Diego six weeks ago for medical treatment in the belief that a speedy recovery might result and with the best specialists in that city in attendance upon her, the tragedy was of no avail. Mrs. Taylor was one of the pioneers of Tonopah, settling there in its early days from Colorado, moving to this city about five years ago. She leaves two sons, Charles and Willie Riley, besides her husband. Mrs. Taylor will be kindly felt by her many friends and acquaintances in Goldfield and Tonopah and the sympathy of the entire community goes out to the family in their loss. The funeral will take place in Goldfield, where the remains will be shipped for interment.
